Certified Dementia Care Planner (CDCP) Course

Offered by Institute of Alzheimer's Education of Hong Kong Alzheimer's Disease Association
Co-developed with the Alzheimer's Disease International and
in collaboration with Sau Po Centre on Ageing, The University of Hong Kong

Course Overview

CDCP Course is an intensive course which encompasses theories and practical experience in dementia care. The 80-hours course involves lecture, class practice, case discussion, practical session and continuous assessment. Students will be equipped as Certified Dementia Care Planner and perform care planning to people living with dementia and their caregivers in multi-disciplinary approach.

The course is suitable to colleagues with 1-2 years of working experience specifically in Dementia Care.

Module 1	<i>Essentials for Understanding Dementia</i>
Module 2	<i>Assessments for Dementia</i>
Module 3	<i>Advanced understanding in common Non-pharmacological Interventions</i>
Module 4	<i>Interventions for Dementia Informal Caregivers and Advance Care Planning</i>

Upon completion of the course, students will be equipped as a Certified Dementia Care Planner and able to:

- ▶ Understand the pathology, symptoms and characteristics, classifications of Dementia and updated intervention approaches
- ▶ Coordinating supports for people with dementia and their families with different caring teams in community, residential and/or hospital services
- ▶ Be competent in assessment, care planning and case management process for Dementia
- ▶ Render support and advice to family caregivers along the caregiving journey
- ▶ Support and guide people with dementia and their families through the Advance Care Planning process

The course offers flexibility for participants to take full course or by module.
